Common Name	Botanical Name	Type	Description	Evergreen?	Light Requirements	Water Use	Size: Height x Width	Blooming season	Flower Color	TX Native	Attracts Bees	Butterfly plant:	? Hummingbirds	Deer Resistant
Agapanthus Purple	<i>Agapanthus</i>	Perennial	Clusters of bell-like bluish-purple flowers on tall, upright stalks that rise 2-3' above clumping, narrow, strap-like, green leaves. Agapanthus blossoms beautifully in the middle of summer, in more shapes, sizes and colors than ever, but it's a flower that needs full sun and well-drained soil to do well.	Herbaceous	Sun - Part Sun	Average	2-3' x 2-3'	Summer	Purple		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Agapanthus White	<i>Agapanthus</i>	Perennial	Lovely clusters of bell-like white flowers on tall, upright stalks that rise 2-3' above clumping, narrow, strap-like, green leaves. Agapanthus blossoms beautifully in the middle of summer, in more shapes, sizes and colors than ever, but it's a flower that needs full sun and well-drained soil to do well.	Herbaceous	Sun - Part Sun	Average	2-3' x 2-3'	Summer	White		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Ajuga Chocolate Chip	<i>Ajuga Reptans</i>	Perennial	A ground-hugging perennial prized for its bluish-purple flower spikes rising slightly above the foliage of tiny, glossy, oval leaves which are chocolate with burgundy highlights. Thrives in shady areas where grass has difficulty growing.	Evergreen	Part Shade to Shade	Average	3" x 6-9"	Spring	Bluish purple			Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Blackfoot Daisy	<i>Melampodium leucanthum</i>	Perennial	Noted for its long blooming season, Blackfoot Daisy is a low, bushy, mounded perennial. It is covered with narrow gray-green leaves and white, daisy-like flowers. The white rays are toothed at the tips and surround yellow disc flowers. These honey-scented flower heads are borne singly on slender stalks from early spring to fall. Good drainage is essential to	Herbaceous	Sun to Part Shade	Low	6-12" x 12-24"	Spring to Fall	White with yellow eye	Texas native	Bee Friendly	Attracts Butterflies		Deer Resistant
Blue Butterfly	<i>Rotheca myricoides 'Ugandense'</i>	Perennial	From summer to fall the Blue Butterfly Bush produces large clusters of dainty blue flowers that very much resemble little butterflies. This is a tropical plant that can be grown as a root hardy perennial in the northern portions of its range, including here in east Texas, but it is late to sprout in the spring. It also makes an easy to grow container plant. In its native habitat it can reach 10-12'H but more typically it is kept as a 4-6'H shrub. The long canes lend it to use as an	Herbaceous	Sun to Part Sun	Average	4-6' x 4-6'	Summer to Fall	Blue		Bee Friendly	Attracts Butterflies		
Candytuft Snowflake	<i>Iberis sempervirens</i>	Perennial	A blanket of pure white! Large clusters of flowers carpet the narrow, evergreen leaves from mid to late spring. An old-time favorite, candytuft is a charming plant for perennial gardens. Because of its drought tolerance, it makes a great filler for crevices in walls or between the stones of walkways. It is also effective as edging or groundcover.	Evergreen	Sun	Low to Average	8-12" x 12-14"	Spring to Summer	White			Attracts Butterflies		Deer Resistant
Cast Iron Plant	<i>Aspidistra elatior</i>	Perennial	This plant is as tough as its name! Excellent for those difficult-to-fill areas in deep shade, spreading gently by underground stems. A nearly fuss-free, lush, leafy evergreen that will tolerate a range of growing conditions including heat, aridity and dry shade. An easy care houseplant for low-light situations. Insignificant flowers.	Evergreen	Part Sun to Shade	Low	2' x 2-3'	Summer to Fall	Cream and maroon					Deer Resistant
Catmint Walker's Low	<i>Nepeta racemosa</i>	Perennial	Noted for massive lavender-blue blooms on short spikes atop aromatic gray-green foliage in early summer, continuing on and off through early fall if spent flowers are regularly removed	Herbaceous	Sun to Part Sun	Low	2-3' - 2-3'	Summer to Fall	Lavender Blue				Hummingbird Magnet	Deer Resistant
Coleus Flamethrower Salsa Verde	<i>Solenostemon scutellarioides</i>	Perennial Tender	The bright yellow-green foliage of 'Salsa Verde' will spice up any garden. Use its stunning color and texture to edge a border or feature it as a container specimen. Easily grown in average to rich, evenly moist, well-drained soil. Protect from harsh afternoon sun in extremely hot climates. Stems may be pinched back lightly mid-season to encourage dense new growth. Feed monthly. Hardy to 40°F.	Herbaceous	Sun - Shade	Average to High	12-18" x 12-18"	Late Summer	Pale blue		Bee Friendly	Attracts Butterflies		Deer Resistant

Spring 2024 Plant Sale

Common Name	Botanical Name	Type	Description	Evergreen?	Light Requirements	Water Use	Size: Height x Width	Blooming season	Flower Color	TX Native	Attracts Bees	Butterfly plant:	? Hummingbirds	Deer Resistant
Coleus Flamethrower Serrano	<i>Solenostemon scutellarioides</i>	Perennial Tender	Grown primarily for its stunning foliage of chartreuse and maroon, FlameThrower 'Serrano' thrives in full sun but can handle some light shade. Does best in well-drained soils. 'Serrano' will produce flowers late in the season which maybe be removed for tidiness or left for the pollinators to enjoy.	Herbaceous	Sun - Shade	Average to High	12-18" x 16-18"	Late Summer	Pale blue		Bee Friendly	Attracts Butterflies		Deer Resistant
Columbine Texas Gold	<i>Aquilegia chrysantha</i>	Perennial	Texas Super Star plant - Yellow long-spurred flowers float above dainty foliage in the spring. This plant will do well under a large tree or something to keep it out of full sun as it wants to be in some light shade. The soil acidity also has a role to play; they optimally desire slightly acidic soil making east Texas soil good for the plant. While in bloom it will attract moths, butterflies, and bees - and hummingbirds want the nectar it produces. E9Naturalizes well.	Herbaceous	Part Shade	Average	30" x 24"	Summer to Fall	Yellow	Texas native	Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Coneflower PowWow Wild Berry	<i>Echinacea purpurea</i>	Perennial	Extremely showy and vigorous, this compact coneflower tolerates poor soil, heat, and humidity. Drought tolerant once established. Deadhead for more blooms. Be sure to leave some of the decorative dried seed heads at the end of the season for both you and the birds to enjoy over the winter.	Herbaceous	Sun to Part Sun	Low	16-20" x 12-16"	Summer to Fall	Purplish-pink		Bee Friendly	Attracts Butterflies		Deer Resistant
Copper Canyon Daisy	<i>Tagetes lemmonii</i>	Perennial	Copper Canyon Daisy has feathery foliage and a sprawling form. Its narrow foliage has a strong scent reminiscent of citronella and mint that helps repel deer. Native to the Sonoran desert, this perennial shrub is very drought-tolerant and suffers if soil is kept too wet, so good drainage is important. Plant in full sun to part shade. Include in low-water succulent designs to complement structural plants. Blooming mainly in late summer through fall, it can also flower in late spring. Its small, golden yellow flowers attract bees and butterflies.	Herbaceous	Sun to Part Shade	Low	3' x 5'	Fall	Golden Yellow		Bee Friendly	Attracts Butterflies		Deer Resistant
Coral Bells Georgia Peach	<i>Heuchera hybrid</i>	Perennial	Heuchera Georgia Peach: Glowing peach-colored foliage has a silvery overlay, shifting to rose-purple as the weather cools. Creamy white bloom spikes add to the charm. Performs in heat and humidity. Ideal in rock gardens or mixed containers.	Evergreen	Part Sun to Shade	Average	10-24" x 12-24"	Spring to Fall	White		Bee Friendly		Hummingbird Magnet	Deer Resistant
Coral Bells Guacamole	<i>Heuchera hybrid</i>	Perennial	Heuchera Guacamole: Electric lime-green wavy foliage with a touch of golden highlights energizes your garden. This dazzler provides beautiful contrast to dark-foliaged plants. Sprays of tiny white bells hover above the substantial foliage. Coral Bells offer a dazzling array of foliage color, texture and shapes. Heuchera bearing many dainty flowers make excellent border plants with their neat clumps of	Evergreen	Part Sun to Shade	Average	10-24" x 12-24"	Spring to Fall	White		Bee Friendly		Hummingbird Magnet	Deer Resistant
Coral Bells Midnight Rose	<i>Heuchera hybrid</i>	Perennial	Shiny, pink-spotted black leaves and a vigorous rounded habit. Leaves enlarge and brighten before lightening to cream.	Evergreen	Sun to Part Shade	Average	10-24" x 12-24"	Spring to Summer	Creamy-white		Bee Friendly		Hummingbird Magnet	Deer Resistant
Coral Bells Obsidian	<i>Heuchera hybrid</i>	Perennial	Delectable and frilly, lime-colored foliage is a sure way to brighten woodland gardens, shady borders, or containers. Super vigorous, with a good-sized mounding habit that makes a statement in the landscape. Plant en masse for a stunning effect. Evergreen in mild winter areas; an herbaceous perennial in colder regions.	Evergreen	Part Sun to Shade	Average	10-24" x 12-24"	Summer	White		Bee Friendly			Deer Resistant
Coreopsis Nana Elfin Gold	<i>Coreopsis auriculata</i>	Perennial	Coreopsis Nana Elfin Gold has dainty brightly yellow-orange flowers, it's perfect for edging a sunny border or in the rock garden	Evergreen	Sun to Part Shade	Low	6-8" x 10-12"	Spring	Golden Yellow		Bee Friendly	Attracts Butterflies		Deer Resistant

Common Name	Botanical Name	Type	Description	Evergreen?	Light Requirements	Water Use	Size: Height x Width	Blooming season	Flower Color	TX Native	Attracts Bees	Butterfly plant:	? Hummingbirds	Deer Resistant
Coreopsis Uptick Cream	<i>Coreopsis x</i>	Perennial	Coreopsis Uptick Cream produces large creamy white flowers continuously from summer to fall. Tidy lush green foliage completes the package. Coreopsis Uptick Cream are disease resistant and require little maintenance; they're superb in a border and great as cut flowers. Native to SE United States	Evergreen	Sun to Part Shade	Average	12-14" x 12-14"	Spring to Summer	Cream with gold center		Bee Friendly	Attracts Butterflies		Deer Resistant
Daylily Stella D'Oro	<i>Hemerocallis x</i>	Perennial	The world's most popular daylily! Blooming from early summer to fall, this clump-forming deciduous perennial spreads slowly into an attractive clump. This carefree perennial fits into almost any garden. Plant into perennial borders as individuals or small clusters. Mass into a sea of color that functions much like a taller groundcover, or arrange them in a row as a mini hedge.	Herbaceous	Sun to Part Sun	Average	1-2' x 1'	Summer to Fall	Golden Yellow			Attracts Butterflies	Hummingbird Magnet	
Dianthus Electric Dreams	<i>Dianthus hybrid</i>	Perennial	Electric pink flowers that will saturate a bed or container with non-stop, vivid color from spring to fall. This showy rebloomer with its profusion of flowers is excellent for use as a single accent or en masse for a dramatic swath of color. Continues blooming spring into fall without any deadheading.	Herbaceous	Sun	Low to Average	8" x 10"	Spring to Fall	Bright pink		Bee Friendly	Attracts Butterflies		Deer Resistant
Eucalyptus Silver Dollar	<i>Eucalyptus cinera</i>	Perennial Tender	Attractive blue-green, coin-shaped juvenile leaves, opposite on the pendulous stems, excellent for adding to bouquets and cut ornamental arrangements. A choice evergreen rounded shrub or shade tree, withstanding heat, dry conditions and wind when established. Suitable as a container specimen for patio, conservatory, or in a bright	Evergreen	Sun	Average	3-6'		Insignificant					Deer Resistant
Fern - Autumn Fern	<i>Dryopteris erythrosora</i>	Perennial Fern	Autumn Fern is evergreen fern with orange-red new fronds in spring, contrasting beautifully with the shiny, dark green mature fronds. Fading to summer green, they draw attention again in fall with their bright red ripe spores on their undersides. Thrives on neglect, pest and disease free.	Evergreen	Part Shade to Shade	Average	2' x 2'							Deer Resistant
Fern - Foxtail Fern	<i>Asparagus meyeri</i>	Perennial Fern	Foxtail asparagus ferns have an unusual, symmetrical look. These fern-like plants have arching plumes of tightly packed, needle-like leaves that look soft and delicate. Foxtail fern plants bloom with white flowers and produce red berries. While the plants appear fragile, foxtail ferns are tough and hardy specimens, flourishing with limited care. Foxtail fern plants are drought-resistant once established.	Evergreen	Part Sun to Part Shade	Average	2' x 2-3'	Summer to Fall	White					Deer Resistant
Fern - Holly Fern	<i>Cyrtomium falcatum</i>	Perennial Fern	Popular for its hardiness and handsome foliage, Holly Fern makes an excellent groundcover or border edging in shaded locations. The stiff, glossy, dark green fronds of holly-like leaflets with coarsely fringed margins add excellent texture to container plantings. Evergreen in mild winter regions.	Evergreen	Part Shade to Shade	Average	1-2' x 2-3'							Deer Resistant
Fern - Japanese Painted Fern	<i>Athyrium niponicum var. pictum</i>	Perennial Fern	Beautiful mounds of dramatic foliage that will be a standout in the shade garden. Luminescent blue-green fronds with dark central ribs fade to silver at the edges. The short stature and spreading form is excellent for use as foreground foliage and ideal for containers.	Herbaceous	Part Shade to Shade	High	18-24" x 18-24"	Summer to Fall						Deer Resistant
Fern - Sensitive fern	<i>Onoclea sensibilis</i>	Perennial Fern	Sensitive Fern has distinctive, coarsely lobed leaves of a slightly chartreuse color. Fiddleheads appear in the spring in shades of pale red. Fertile fronds appear in late summer with a beaded look to the stalks; though dead, these stalks remain upright through winter. Common name is derived from the early sensitivity of this fern to frost.	Herbaceous	Part Shade to Shade	Average to High	3-4' x 3-4'			Texas native				Deer Resistant

Spring 2024 Plant Sale

Common Name	Botanical Name	Type	Description	Evergreen?	Light Requirements	Water Use	Size: Height x Width	Blooming season	Flower Color	TX Native	Attracts Bees	Butterfly plant:	? Hummingbirds	Deer Resistant
Fern - Wood fern	<i>Thelypteris kunthii</i>	Perennial Fern	Light green arching fronds spread by rhizomes to form a dense colony with an elegant, open, fountain shape that adds excellent form and texture as a foundation planting and under shade trees. Naturalizes well with other understory natives in wild gardens. Equally at home in wet or dry shade,	Herbaceous	Part Sun to Shade	Average to High	2-3' x 2-4'			Texas native				Deer Resistant
Firebush	<i>Hamelia patens</i>	Perennial Tender	Long blooming, easy care tropical bedding plant with showy red-orange, tubular flowers. Great hummingbird attractant. Tremendous heat tolerance coupled with good pest resistance. Although a woody perennial in its native habitat, firebush is best utilized as an annual (mature height: 18-30 inches) from central Texas northward.	Herbaceous	Sun to Part Sun	Average	2-3' x 2'	Summer to Fall	Orange-Red			Attracts butterflies	Hummingbird Magnet	
Gaura Belleza Compact White	<i>Oenothera lindheimeri</i>	Perennial	Don't let the dainty, ethereal, white flowers fool you - this is a tough plant like the other Gauras. This care-free plant is a wonderful choice for a white or moon garden. Foliage tends to be greener than the pink-flowered cultivars. Disease and pest free.	Herbaceous	Sun to Part Shade		1-2' x 1-2'	Summer to Fall	White	Texas native		Attracts Butterflies		Deer Resistant
Gaura Siskiyou Pink	<i>Oenothera lindheimeri</i>	Perennial	Gaura Siskiyou Pink features airy masses of deep pink flowers fluttering above the red-tinged, green foliage and resembling clouds of butterflies. Full sun is best for this drought-tolerant plant, although it will tolerate partial shade. A very versatile plant for sunny mixed borders and containers.	Herbaceous	Sun	Low to Average	18-24" x 12-18"	Summer to Fall	Pink	Texas native		Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Gerbera Daisy	<i>Gerbera jamesonii</i>	Perennial Tender	Need something special for your patio pots? Huge, over 6" across" two-toned flowers bloom all season long until frost. Can be brought indoors and used as a houseplant in a bright window. The large flowers and long stems make a superb cut flowers. Will last for weeks in the vase. Gerberas love lots of sunshine (at least 6 hours a day), but do not like intense heat. So they need a spot with afternoon shade. Deadhead to extend the blooming period. We have two color combos to choose from - 'Painted Desert' (yellow and orange) or Monte Viso (white and pink).	Herbaceous	Sun to Part Sun	Average	10-18" x 9-12"	Summer to Fall	Orange-Yellow		Bee Friendly	Attracts Butterflies		
Grass - Carex Blue Zinger	<i>Carex flacca</i>	Perennial Grass	Blue Zinger Sedge adapts to varied soil conditions and is drought tolerant once established. Carex 'Blue Zinger' holds its blue coloring through the winter in milder climates and works well in sweeps as a clumping groundcover. The narrow foliage adds vigorous color and fine texture to the garden, especially contrasted with stone or metal garden features. For a tidy appearance, cut back foliage in early spring before new growth appears.	Evergreen	Sun to Part Sun	Low to High	1-2' x 1-2'	Spring to Summer	Cream					Deer Resistant
Grass - Carex Evercolor Everillo	<i>Carex oshimensis</i>	Perennial Grass	Add drama to shady spots or containers with this versatile, easy care grass. Bright, colorful yellow-green foliage, year-round. Use as a groundcover, to edge a path, or tuck into a window box.	Evergreen	Part shade	Average to High	18-24" x 18-24"	Spring	Brown					Deer Resistant
Grass - Lemon Grass	<i>Cymbopogon citratus</i>	Perennial Grass	A fast-growing ornamental grass; lemongrass is as handsome waving in the summer breeze as it is appetizing in your soups, stir-fries and teas. Also adds gorgeous color in autumn gardens, when it turns burgundy and red.	Herbaceous	Sun		3-5' x 4-5'							
Grass - Sedge Feather Falls	<i>Carex oshimensis</i>	Perennial Grass	Variegated foliage that spills down the side of the plant. Brighten a shaded path or crown a sunny stone wall with Carex Feather Falls Ornamental Grass. Forming a well-mannered fountain of cascading blades, these tough little plants also work well in containers.	Evergreen	Sun to Shade	Average to High	12-18" x 18-23"	Spring to Summer	Cream					Deer Resistant

Spring 2024 Plant Sale

Common Name	Botanical Name	Type	Description	Evergreen?	Light Requirements	Water Use	Size: Height x Width	Blooming season	Flower Color	TX Native	Attracts Bees	Butterfly plant:	? Hummingbirds	Deer Resistant
Gregg's Mistflower	<i>Conoclinium greggii</i>	Perennial	Fuzzy lavender flowers top the bright, lacy, green foliage spring through fall. The big show is in the fall when in full bloom and covered in butterflies. Like to creep, so it could be used as a groundcover. Easy to divide and share with friends. Requires little water.	Herbaceous	Sun to Part Shade	Low	1-2' x 1-2'	Spring to Fall	Lavender	Texas native	Bee Friendly	Attracts Butterflies		Deer Resistant
Lamb's Ear Helen von Stein	<i>Stachys byzantina</i>	Perennial	Dependable, fast-growing ground cover with velvety soft silver-green foliage. Can produce pink-purple flowers in ideal conditions. Tuck it into borders, use as a border plant to define garden spaces, or just pop in a pot and enjoy its great fuzzy texture. Tolerant of most well-drained soils.	Evergreen	Sun to Part Sun	Low	4-6" x 18-30"	Summer	Pink-purple			Attracts Butterflies		Deer Resistant
Lantana Fireworks	<i>Lantana camara</i>	Perennial Tender	The mounding growth habit and two-tone orange blooms makes this a fantastic choice for landscape, baskets and containers! Lantana prefers full sun and grows best in average, well drained soil. If desired can be deadheaded to promote extra blooms. Please remember, these pretties may need a little extra TLC and more consistent watering.		Sun - Part Sun	Average	1.5-2' x 2-3'	Spring to Frost	Orange			Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Lantana Ham and Eggs	<i>Lantana camara</i>	Perennial	Lantana Ham and Eggs is an old, sterile cultivar that has been passed along in the Southeast for many years. Lantana Ham and Eggs is topped from early summer until fall with flowers that open pink and then develop a central pattern of flowers which are cream with a golden eye...a summer delight for hummingbirds. Occasionally, there is a slight tinge of orange in the flower...a real show stopper! Drought tolerant once established.	Herbaceous	Sun	Low to Average	30" x 48"	Summer to Fall	Pink, Yellow		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Lavender Grosso	<i>Lavandula x intermedia</i>	Perennial	Grosso lavender is a highly fragrant lavender with large deep violet flower spikes, up to 6 inches long. Grosso seems to bloom forever; the fat, dark violet long spikes appear throughout summer. Notorious for its extreme fragrance, prolific blooming, and butterfly attraction, it has long been cultivated in Europe for its essential oil. The silvery gray foliage is also delightfully fragrant. As with all lavenders, keep the soil light and on the dry side for best performance.	Evergreen	Sun	Low	2-3' x 2-3'	Summer	Purple		Bee Friendly	Attracts Butterflies		Deer Resistant
Lavender Phenomenal	<i>Lavandula x intermedia</i>	Perennial	This extremely fragrant Lavender is dense, compact and early-blooming, often repeat-blooming in the fall. Spikes blanket the mound on strong evenly-branching stems perfect for bouquets or drying. Remains round in shape and upright all year round. Tolerates heat and humidity well. As with all lavenders, keep the soil light and on the dry side for best	Evergreen	Sun	Low	2-2.5' x 2-3'	Summer, Fall	Violet-blue		Bee Friendly	Attracts Butterflies		Deer Resistant
Mexican Petunia Purple Showers	<i>Ruellia simplex</i>	Perennial	Sturdy, easy to grow, tolerates moist soils. Vivid purple flowers attractive to butterflies.	Herbaceous	Sun to Part Sun		10-30" x 12-18"	Spring to Fall	Purple		Bee Friendly	Attracts Butterflies		Deer Resistant
Oxalis Purple	<i>Oxalis triangularis</i>	Perennial	Rich, vibrant purple leaves. Can be grown indoors. Easy care. Oxalis needs a few hours of sunlight every day, but appreciates afternoon shade in a hot climate. Leaves may wilt during hot afternoons, but they usually bounce back when the temperature drops in the evening.	Herbaceous	Part Sun	Average	12" x 12"	Spring and Fall	White or Pink		Bee Friendly	Attracts Butterflies		Deer Resistant
Phlox John Fanick	<i>Phlox paniculata</i>	Perennial	Large heads of fragrant, pale pink flowers with darker pink eyes attract butterflies and hummingbirds. This phlox appreciates nice rich organic soils, moderate moisture, and good air circulation, though it's tough enough to take on less than ideal conditions. Be sure to check it out in our	Herbaceous	Sun to Part Shade	Average	1-3' x 1-3'	Summer to Fall	Pale pink		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant

Spring 2024 Plant Sale

Common Name	Botanical Name	Type	Description	Evergreen?	Light Requirements	Water Use	Size: Height x Width	Blooming season	Flower Color	TX Native	Attracts Bees	Butterfly plant:	? Hummingbirds	Deer Resistant
Phlox Ka-pow Purple	<i>Phlox paniculata</i>	Perennial	Early-flowering, vivid purple flower with a slightly darker center, Ka-Pow Purple Phlox provides an abundance of flowers all throughout spring and summer. Ka-Pow Purple Phlox offers better branching, resistance to powdery mildew, and vibrant colors with bright, long-lasting blooms that flower from late spring through late summer.	Herbaceous	Sun to Part Shade	Average	16-18" x 14-16"	Spring to Summer	Purple		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Phlox Texas Pink	<i>Phlox paniculata</i>	Perennial	Large rounded clusters of lightly fragrant purplish-pink flowers are held by sturdy purplish-red stems. Blooms early summer and last for several weeks. Deadhead to prolong flowering. This clumping perennial does best in full sun with well-drained, moderately rich soil. Great butterfly and bee plant! Generally deer resistant. Good mildew resistance.	Herbaceous	Sun to Part Sun	Average to High	3-4' x 2-3'	Summer	Purplish-pink		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Pincushion Flower Butterfly Blue	<i>Scabiosa columbaria</i>	Perennial	Lovely, drought tolerant, prolific bloomer from spring to fall. Easy to grow.	Herbaceous	Sun to Part Sun	Average	12-18" x 15"	Spring to Fall	Purple and Pink		Bee Friendly	Attracts Butterflies		Deer Resistant
Pineapple Elite Gold	<i>Ananas cosmosus</i>	Perennial Tender	Graceful, deep green, fountain-like plants can produce fruit as soon as one year. This amazing variety produces large, white fleshed fruit with a soft center. Fruit is high in sugar, low in acid. Excellent container plant, bring indoors for the winter. Will sucker to produce more plants. Do not over water.	Evergreen	Sun to Part Sun	Average	3' x 3'	Summer	White, Red, Pink					
Pink Skullcap	<i>Scutellaria suffrutescens</i>	Perennial	Low growing, long bloomer with gray-green foliage and festive pink flowers. Native to Mexico, this heat tolerant, drought tolerant plant would make an excellent border or groundcover in a water wise garden.	Herbaceous	Sun to Part Sun	Low to Average	1-2' x 2'	Summer	Pink		Bee Friendly	Attracts Butterflies		Deer Resistant
Red Yucca	<i>Hesperaloe parviflora</i>	Perennial	Red yucca is a showy succulent for Texas gardens. Not a yucca, this member of the Century-Plant family produces soft, yucca-like, evergreen leaves, 2-3 ft. in length, crowded on the perennial's short, woody base. The flower stalk rises 5 ft. and bears showy, coral-colored, tubular flowers on arching, wand-like, pink stems - a hummingbird favorite! Leaves are plum-colored in winter; blue-green other times. Red yucca is adaptable to a variety of soils. The leaves are deer resistant, but the flowers can be eaten by deer. Once established is drought tolerant. Planted in the Waterwise Garden and the Succulent Garden.	Evergreen	Sun	Low	3-4' x 3-4' bloom spikes 4-6' tall	Spring to Summer	Coral	Texas native		Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Rosemary, Creeping	<i>Rosmarinus officinalis 'Prostratus'</i>	Perennial	Fragrant, edible herb. Creeping rosemary is a dense and low-growing evergreen shrub. Creeping rosemary is a trailing rosemary plant with pale blue flowers and dark green needles.	Evergreen	Sun	Low to Average	1-2' x 2-3'	Spring	Pale blue		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Rosemary, Upright	<i>Rosmarinus officinalis</i>	Perennial	Fragrant, edible herb. Pretty lavender-blue flowers in Spring.	Evergreen	Sun	Low to Average	4' x 3'	Spring	Lavender-blue		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Russian Sage Crazy Blue	<i>Salvia yangii (Perovskia atriplicifolia)</i>	Perennial	Compact and colorful perennial for use as an accent, border or mass planting. Violet-blue flower spikes arise from the lacy, gray-green aromatic foliage, adding an airy feel to the landscape. Hardy and heat tolerant, and sturdy, interlacing branches do not fall open in wind and rain. Does not like wet feet! Cut back to 6" in spring when new growth emerges.	Deciduous	Sun	Low to Average	16-18" x 14-16"	Spring to Fall	Violet-blue		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Salvia Autumn Sage Radio Red	<i>Salvia greggii</i>	Perennial	Radio Red is a compact selection of autumn sage that features red flowers, a well-branched habit, and long blooming period. Bright red, tubular flowers bloom on 4.5" tall, terminal spikes from late spring through fall. Highly attractive to hummingbirds.	Evergreen	Sun to Part Sun	Low to Average	2-3' x 2-3'	Spring to Fall	Crimson Red	Texas Native	Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant

Salvia Autumn Sage Raspberry	<i>Salvia greggii</i>	Perennial	Dark calyxes and stems contrast intensely with the bright berry-colored flowers. Fast growing, early blooming, and resinously fragrant foliage. Appreciates a bit of shade at the hottest time of the day. Drought resistant once established. However, they thrive with average watering but well draining soil is crucial. These long blooming subshrubs combine soft herbaceous growth with a bit of woodiness. In early spring can be pruned back 1/3 - 1/2 to avoid legginess. Pinch prune to encourage more flowering. Great plant for attracting a wide variety of pollinators!	Evergreen	Sun to Part Sun	Low to Average	2-3' x 1-2'	Spring to Fall	Raspberry Pink	Texas native	Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Salvia Autumn Sage White	<i>Salvia greggii</i>	Perennial	A white Autumn Sage for your moon/white garden! (Be sure to check ours out in the White Garden.) In the heat of the summer you will enjoy its cooling, white flowers. Has distinct, resinously fragrant foliage. Appreciates a bit of shade at the hottest time of the day. Drought resistant once established. However, will thrive with average watering but well-draining soil is a must. These long blooming subshrubs combine soft herbaceous growth with a bit of woodiness. In early spring can be pruned back 1/3 - 1/2 to avoid legginess. Pinch prune to encourage more flowering. Great plant for attracting a wide variety of pollinators!	Evergreen	Sun to Part Sun	Low to Average	2-3' x 2-3'	Spring to Fall	White	Texas native	Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Salvia Black and Blue	<i>Salvia guaranitica</i>	Perennial	Black and Blue Salvia is a fragrant, heat tolerant plant that produces a dazzling color combo of deep cobalt blue flowers and black calyxes. Flowers appear on spikes to 10" long over a long bloom time: mid-summer to frost. The aromatic foliage exudes a soft anise scent when bruised. Attractive to pollinators.	Herbaceous	Sun to Part Shade	Average	30-40" x 20-24"	Summer to Fall	Blue		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Salvia May Night	<i>Salvia x</i>	Perennial	This colorful perennial produces vivid violet blue flower spikes atop the mounded, aromatic foliage. Lovely when planted in drifts. Attracts butterflies and hummingbirds. Easy to grow. Drought tolerant but blooms better with moderate moisture. Cut back after flowering to promote rebloom.	Herbaceous	Sun	Low to Average	1.5-2' x 1-1.5'	Spring to Summer	Dark violet-blue			Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Salvia Mexican Bush Sage	<i>Salvia leucantha</i>	Perennial	Everybody loves this salvia: the bees, the butterflies, the hummers, and gardeners. Grown for its long showy wands of velvety, purple flowers. Easy to grow, happiest in full sun. Drought tolerant, but appreciates and does better with moderate moisture.	Herbaceous	Sun	Average	4-6' x 4-6'	Summer to Fall	Purple and white		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Salvia Purple	<i>Salvia guaranitica x</i>	Perennial	Hummingbirds love this stately salvia! Its deep purple tubular flowers with their striking black calyxes will lure the hummers to your garden. The bright green foliage sets off the flower spikes nicely. Does best in average draining, fertile soil with average moisture, but once established is drought tolerant. Great performing, low maintenance perennial, but can deadhead and fertilize for even better	Herbaceous	Full Sun to Part Sun	Low to Average	3-4' x 2-3'	Spring to Fall	Purple		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Sedum Autumn Joy	<i>Sedum spectabile</i>	Perennial	This sturdy perennial is as tough as they come. Clumping blue-green foliage with large, plate-like flower clusters that start pink, then gracefully age to coppery-rust in the fall. The dried stalks provide winter interest. Does best in well-drained soil. A fine addition to the rock garden or mixed border. Succulent foliage will die back to the ground over winter, but will re-emerge in early spring. Vigorous, hardy, good looking, and dependable plant.	Herbaceous	Sun to Part Sun	Low to Average	18-24" x 18-24"	Summer to Fall	Pink, Copper		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant

Spring 2024 Plant Sale

Common Name	Botanical Name	Type	Description	Evergreen?	Light Requirements	Water Use	Size: Height x Width	Blooming season	Flower Color	TX Native	Attracts Bees	Butterfly plant:	? Hummingbirds	Deer Resistant
Shasta Daisy Snow Lady	<i>Leucanthemum x superbum</i>	Perennial	No sunny border would seem complete without the familiar presence of Shasta Daisies. This is a terrific dwarf strain, producing a low mound with a long succession of large white yellow-eyed daisies. Great for edging, also excellent in tubs or mixed containers. Divide plants in the spring every 2 to 3 years to maintain vigour. Removing faded flowers regularly will greatly increase the blooming time. Attractive to bees and butterflies.	Herbaceous	Sun to Part Shade	Average	8-10" x 10-12"	Summer to Fall	White		Bee Friendly	Attracts Butterflies		Deer Resistant
Shrimp Plant, Golden Shrimp Plant	<i>Pachystachys lutea</i>	Perennial Tender	Golden candle or shrimp plant is a tropical plant that grows typically to 12-18" tall. Narrow, tubular, two-lipped white flowers are partially covered by and protrude from showy, overlapping golden yellow bracts that resemble overlapping scales on a shrimp. Lance-shaped to elliptic medium green leaves (to 6" long) are heavily veined. Grow in the garden as a summer annual, in containers that can be overwintered indoors; or as a houseplant. In the ground, plants need a moist, organically rich, well-drained soil in part sun or part shade. Houseplants are best in warm, humid, part-sun to shady locations.	Evergreen	Part Sun to Shade	Average	12-18" x 12-18"	Summer	White Flowers, Yellow bracts			Attracts Butterfly	Hummingbird Magnet	
Shrimp Plant, Red	<i>Justicia brandegeana</i>	Perennial	Red Shrimp Plant is a terrific addition to the east Texas garden! Bright rosy-pink to salmon-colored flower-like bracts lend a shrimp-like appearance, while white flowers peak out to invite pollinators. Red Shrimp Plant can tolerate full sun but performs better with a little afternoon shade.	Evergreen	Sun to Part Sun	Average	3-4' x 3-4'	Summer	Maroonish-red and white			Attracts Butterflies	Hummingbird Magnet	
Society Garlic Variegated	<i>Tulbaghia violacea 'Variegata'</i>	Perennial Tender	Variegated society garlic is a grassy, clumping groundcover that grows to about a foot tall. Lilac-purple flower clusters top tall stems throughout the warm months, especially in spring and summer. Creamy white stripes line the edges of each strappy, blue-green leaf, giving the plant an extra refined appearance. Society garlic has a strong garlic/onion scent when brushed against or cut, and its edible flowers and leaves have a mild garlic/onion flavor. Although it will flower more abundantly in full sun, society garlic also grows quite well in shade. It looks lovely when planted along the edge of a pond or near a water feature, and does well alongside annuals or other perennials in containers and flower beds.	Herbaceous	Sun to Part Shade	Average to High	1-2' x 1-2'	Spring to Fall	Lilac Purple		Bee Friendly			Deer Resistant
Tecoma Red Hot	<i>Tecoma</i>	Perennial Tender	Tecoma 'Red Hot' has drought tolerance, a compact habit, and unique flower color. Flowers open crimson red and age to intense orange with a yellow center. The trumpet-shaped blooms are lightly fragrant and attract hummingbirds. Needs well-drained soil in part sun.	Evergreen	Sun - Part Sun	Average	4' x 4'	Spring to Frost	Red-Orange		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Texas Frogfruit	<i>Phyla nodiflora</i>	Perennial	Texas Frogfruit can be used as an excellent ground cover and is evergreen in warm year and in areas protected from frost. It spreads vigorously. Frogfruit generally is a good nectar plant for butterflies. It is an attractive plant rambling over boulders or the edges of hanging baskets. It also can tolerate drought and flooding. Do not mow while blooming.	Herbaceous	Sun to Part Shade	Low to High	3-6" x 12"	Spring to Fall	White, Red, Pink	Texas native	Bee Friendly	Attracts Butterflies		Deer Resistant
Texas Primrose, Texas Sundrops	<i>Calylophus berlandieri</i>	Perennial	Long bloom season of bright yellow flowers from spring into fall. Incredible performer, beloved by pollinators. Texas tough, likes lots of heat and excellent drainage. Great in rock gardens. Drought tolerant. He have this planted in our Monarch Demonstration Garden and our Waterwise Garden.	Evergreen	Sun	Low	1' x 3'	Spring to Summer	Yellow	Texas native	Bee Friendly	Attracts Butterflies		Deer Resistant

Texas Rock Rose	<i>Pavonia lasiopetala</i>	Perennial	Shrub-like with 1.5" miniature rose-pink hibiscus-shaped flowers; long bloom period; drought resistant. During the heat of the summer the flowers open in the morning and close up by early afternoon. In full sun the leaves crinkle and the plant takes on a tighter form. With more shade the leaves relax and plant has a softer appearance.	Deciduous	Sun to Part Shade	Low to Average	1.5-4' x 3'	Spring to Fall	Pink	Texas native		Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Turk's Cap, Pink	<i>Malva viscosa arborescens x</i>	Perennial	This native has large slightly fuzzy leaves and many spreading stems. In full sun the leaves crinkle and the plant takes on a tighter form. With more shade the leaves relax and plant has an airy, tropical look. Blooms are soft coral-pink and twisted like a hibiscus flower about to open. Sets fruits resembling small red cherries that attract birds and other wildlife. Attracts hummingbirds!	Deciduous	Sun to Shade	Low to High	5-8' x 5-8'	Spring to Fall	Pink	Texas native	Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Turk's Cap, Red	<i>Malva viscosa arborescens var. drummondii</i>	Perennial	This native large slightly fuzzy leaves and many spreading stems. In full sun the leaves crinkle and the plant takes on a tighter form. With more shade the leaves relax and plant has an airy, tropical look. Blooms are bright red and twisted like a hibiscus flower about to open. Sets fruits resembling small red cherries that attract birds and other wildlife. Attracts hummingbirds!	Deciduous	Sun to Shade	Low to High	5-8' x 5-8'	Spring to Fall	Red	Texas native	Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Variegated Shell Ginger Variegata	<i>Alpinia zerumbet</i>	Perennial Tender	Leafy, arching stems create a lush, tropical effect with boldly striped yellow and green foliage. Large, drooping clusters of white and pink shell-like flowers are sweetly fragrant. Works well in containers and can be used as an indoor specimen. Needs a little babying—plenty of moisture and good organic soil.	Evergreen	Sun to Part Sun	Average to High	3-4' x 4'	Spring	White					
Veronica Sunny Border	<i>Veronica 'Sunny Border'</i>	Perennial	Tall stalks display deep violet-blue flowers to create a splash of summer color lasting into fall. Erect stems hold attractive dark green, ribbed and serrated leaves. A herbaceous perennial. Full sun. Fast growing clump.	Herbaceous	Sun	Average	18-20" x 18-20"	Summer to Fall	Blue			Attracts Butterflies		Deer Resistant
Violet Skullcap	<i>Scutellaria x</i>	Perennial	Woody gray-green foliage contrasts the violet flowers. It has a tidy, mounding habit where scallop shaped blooms peek above compact spikes. It is a butterfly and bee attractant for the pollinator promoters. It is also rabbit resistant and drought tolerant. Plant in full sun, the hotter and harsher conditions the better it will perform. Occasional shearing can help maintain its uniform appearance.	Herbaceous	Sun	Low to Average	6" x 10-15"	Spring to Fall	Violet		Bee Friendly	Attracts Butterflies		
Winecups	<i>Callirhoe involucrata</i>	Perennial	A native wildflower that decorates the garden with a summer-long display of bright magenta-pink flowers. A sprawling grower, long branches spread out across the ground to create a colorful mat of flowers and foliage.	Herbaceous	Sun	Low	5" x 24-30"	Summer	Magenta	Texas native	Bee Friendly	Attracts Butterflies		Deer Resistant
Yarrow Paprika	<i>Achillea millefolium</i>	Perennial	Paprika is a spreading, mat-forming common yarrow cultivar which is noted for its deeply-dissected, fern-like, aromatic, medium green foliage. The plant is topped with tiny, long-lasting, dusty-red flowers with yellow centers which appear in dense, flattened clusters (2-3" across). Paprika blooms throughout the summer on stems typically rising 1.5-2' tall. Initial flower color fades to light pink, creamy yellow and brown. Foliage has a strong, somewhat spicy aroma which persists when used in dried arrangements. Cut back to encourage reblooming.	Herbaceous	Sun	Low to Average	1.5-2' x 1.5-2'	Summer	Dusty-Red with Yellow centers		Bee Friendly	Attracts Butterflies		Deer Resistant
Yarrow Tutti Frutti Pink Grapefruit	<i>Achillea millefolium</i>	Perennial	Shades of pink flowers are held above finely cut green foliage. The flowers open up deep rose and then fade to a delicate, creamy pink. 'Pink Grapefruit' is compact and bushy, with very uniform blooming over a long season. Good drainage essential. Drought tolerant.	Herbaceous	Sun	Low to Average	2' x 2'	Summer to Fall	Pink	Texas native	Bee Friendly	Attracts Butterflies		Deer Resistant

Abelia Tres Amigos	<i>Abelia grandiflora</i>	Shrub	For gardeners on the hunt for elegant, but interesting foliage. Tres Amigos abelia seems to change each time you visit it out in the garden. In spring it starts out with green, cream, pink, and yellow-tinged foliage. Its most vibrant color is yellow, bringing sunshine into the slowly filling garden. By summer, the yellow has left completely and the pink edge on the leaf takes over. The new growth at the end of each stem is almost entirely a warm watermelon pink with sporadically placed white flowers. Each flower is fluted, perfect for inviting hummingbirds and butterflies into the garden, and has a lovely jasmine-like fragrance. Its compact habit suits it nicely for use at the front of the border, in containers, and in mixed borders with perennials and annuals. 2-3'h x 3-5'w	Evergreen	Sun to Part Sun	Average	2-3' x 2-5'	Spring to Fall	White		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Althea (Rose of Sharon) Chiffon Pink	<i>Hibiscus syriacus</i>	Shrub	Unique, clear pink color! This beautiful new rose of Sharon has the same flower power and soft, graceful stems of other Chiffon varieties, but with large, double, soft pink flowers. You'll fall in love with the distinctive, clear pink blooms - they're a favorite of everyone who sees them in our trial garden.	Deciduous	Sun	Average	8-12' x 4-6'	Summer	Soft Pink		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Althea (Rose of Sharon) Paraplu Pink Ink	<i>Hibiscus x</i>	Shrub	Summer belongs to bold, blooming plants, and Paraplu Pink Ink hibiscus is definitely that! This hybrid rose of Sharon spends summers bedecked with very large, very showy white and pink flowers. The star-like pink eye at the center of each bloom makes for a dazzling effect. Even though each individual flower lasts only one sweet summer day, the plant makes lots of buds for long-lasting color you can enjoy for months every season. Deep green foliage and an upright-yet-graceful habit make this rose of Sharon suitable for specimen plantings, flower gardens, even a showy hedge. 5-8't x 4-5'w	Deciduous	Sun	Average	5-8' x 4-5'	Summer	White, Pink		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Azalea Conversation Piece	<i>Azalea hybrid</i>	Shrub	Conversation Piece azalea are noted for their large flowers (nearly 4" across). Flower color can range from dark pink to nearly white with darker pink center blotches on the same plant. This azalea is a repeat bloomer, blooming in midspring and again in fall. Conversation Piece has small to medium growth with low, broad, moderately dense branching. Use this low-growing, mounding shrub as a color accent or in a foundation planting.	Evergreen	Part Sun to Part Shade		2-5' x 3-5'	Spring and Fall	Dark pink to white		Bee Friendly	Attracts Butterflies		
Azalea Deja Bloom Fuchsia Parasol	<i>Azalea hybrid</i>	Shrub	Filled with vibrant, magenta blooms, Fuchsia Parasol is the most florific re-blooming azalea of the collection. Its upright growth habit creates an exceptional showcase plant or a perfect blooming hedge. Each Déjà Bloom variety was bred for vivid blooms and color purity, while also ensuring exceptional disease and pest resistance.	Evergreen	Part sun	High	3.5' x 3.5'	Spring to Fall	Fuchsia		Bee Friendly			
Azalea Deja Bloom Red Tiara	<i>Rhododendron x</i>	Shrub	Repeat bloomer with strong, clear red blooms. Color purity prevails in Red Tiara. Red blooms remain true throughout the heavy bloom cycle, without fading to pink. As the most compact variety of the collection, it's ideal for containers or small gardens. Red Tiara was bred for vivid blooms and color purity, while also ensuring exceptional disease and pest	Evergreen	Sun to Part Shade	Average to High	3.5' x 3.5'	Spring to Fall	Red		Bee Friendly		Hummingbird Magnet	
Azalea Deja Bloom Vixen	<i>Rhododendron x</i>	Shrub	A true re-bloomer with a double red flower. Vixen has held up quite nicely during the summer in trials. Don't wait to try this new Deja Bloom variety in your gardens!	Evergreen	Sun to Part Shade	Average	3.5' x 3.5'	Spring to Fall	Red					

Wood County Arboretum and Botanical Gardens
Spring 2024 Plant Sale

Common Name	Botanical Name	Type	Description	Evergreen?	Light Requirements	Water Use	Size: Height x Width	Blooming season	Flower Color	TX Native	Attracts Bees	Butterfly plant:	? Hummingbirds	Deer Resistant
Azalea Hardy Gardenia	<i>Rhododendron x</i>	Shrub	Large white double blooms capture the appearance of the gardenia. The dark green foliage emerges light green in the spring on this open, multi-stemmed shrub. Ideal when massed in borders, foundation plantings, as an accent, or in a container. Well-drained, highly acidic and organic soil a must. We have this planted in the white garden at the Arboretum, and they have survived the past years' cold and drought (with supplemental watering).	Evergreen	Part Sun to Part Shade	Average	3' x 3'	Spring	white		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	
Boxwood Richard	<i>Buxus harlandii</i>	Shrub	One of the hardiest and most adaptable boxwoods for southern climates in USDA Zones 7 to 9, the Richard Boxwood is a semi-dwarf that left alone will grow 4 to 5 feet tall and equally as wide but with an annual trimming in late winter can easily be kept at 2 to 3 feet. It is an exceptionally handsome selection with dense, glossy, very deep green leaves that are notched at the tips. Thriving in both sun or shade and responding very well to trimming to various shapes makes it a designers choice for foundation plantings, as formal hedges or to accentuate an entryway. With little effort it can be trimmed into interesting geometrical shapes such as a globe, dome, square, cylinder or pyramid. Spring flowers are insignificant though are quite fragrant.	Evergreen	Sun - Shade	Low to Average	4-5' x 4-5'	Spring	White					Deer Resistant
Butterfly Bush Miss Molly	<i>Buddleia x</i>	Shrub	Rich and unique red flower color is very eye-catching. With its intensely colored blooms and refined habit, 'Miss Molly' is the queen of the summer garden. Its fragrant flowers are the closest to red of any butterfly bush and appear for months every summer without deadheading. Unlike older varieties of butterfly bush, 'Miss Molly' reaches just 4-5'/1.2-1.5m tall, so it's easy to work into any sunny landscape. This non-invasive variety thrives in hot climates. Butterflies and hummingbirds will find it as irresistible as you do!	Deciduous	Sun	Average	4-5' x 4-5'	Summer	Red Pink		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Butterfly Bush Pugster Amethyst	<i>Buddleia x</i>	Shrub	Pugster Amethyst butterfly bush offers full-sized flowers on a dwarf plant. This compact butterfly bush reaches just 2' tall and wide but has the large, full flowers normally seen on a much larger plant. It blooms non-stop from early summer through frost with fragrant, extra-plump frosty-lavender flowers, a butterfly and hummingbird favorite! Pugster Amethyst requires no deadheading or pruning and blooms continuously and abundantly.	Deciduous	Sun	Low	2' x 2'	Summer to Fall	Light Purple		Bee Friendly	Attracts Butterflies		Deer Resistant
Butterfly Bush Pugster Blue	<i>Buddleia x</i>	Shrub	Pugster Blue is the perfect container butterfly bush! This compact plant reaches just 2' tall and wide but has the large, full flowers normally seen on a much larger plant. Sturdy spires of purple-blue fragrant flowers each dotted with a tiny orange eye bloom non-stop from early summer through frost. Butterflies and hummingbirds adore the nectar-rich flowers.	Deciduous	Sun	Low to Average	2' x 2-3'	Summer to Fall	Purple-blue		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Confederate Rose	<i>Hibiscus mutabilis</i> 'Plenus'	Shrub	This double-pink heirloom has long been a popular favorite among Southern gardeners! Clusters of 4-6" fully double, bright pink, peony-like flowers are born in late summer and into fall. Hard winters will freeze to the ground but it will bounce back.	Deciduous	Sun to Part Shade	Low to Average	6-15' x 6-10'	Summer to Fall	Pink, Double			Attracts Butterflies		Deer Resistant
Coralberry	<i>Symphoricarpos orbiculatus</i>	Shrub	Coralberry is a low-growing, spreading shrub with attractive winter berries and bluish-green foliage. Pinkish-white flowers give way to clusters of round, coral-colored berries which mature in autumn. Berries persist through most of the winter providing excellent color and interest to the winter garden.	Deciduous	Part Shade to Shade	Low to High	2-5' x 4-8'	Spring to Summer	Pinkish-White	Texas native				Deer Resistant

Spirea Double White	<i>Spiraea cantoniensis</i>	Shrub	A tough, easy, and low-maintenance heirloom shrub! The 2-3" wide clusters of up to 1/2" diameter, bright white, fully double flowers are produced in early spring all along the softly arching branches just before and during the emergence of the bluish-green, soft-textured new foliage. Double White Spiraea looks great intermingled with the large type Indica Azaleas for a wonderful spring show. This is a medium sized, 6'x6' shrub with arching branches that when left unpruned looks like a cascading waterfall of flowers. Can be used as a tough, easy, and low-maintenance shrub as an informal hedge or screen, or as individual specimen plants.	Deciduous	Sun - Part Shade	Low to Average	6' x 6'	Spring	White			Attracts Butterflies		Deer Resistant
Sunrosa Red Rose	<i>Rosa hybrid</i>	Shrub	This new, beautiful, compact shrub rose is long-flowering and performs well in heat and humidity, with exceptional disease resistance. Intense, true red, 2" double blooms have a mild, tea-rose fragrance. Sunrosa varieties require less pruning than ordinary shrub roses, meaning less work and more enjoyment. Ideal for smaller gardens, borders and patio containers. No pruning required!	Deciduous	Sun - Part Sun	Average	1-2' x 1-1.5"	Spring to Frost	Red			Attracts Butterflies		
Sweetspire Henrys Garnet	<i>Itea virginica</i>	Shrub	Brilliant red-purple fall foliage color lasts into winter to make this a standout in the landscape. Slender clusters of fragrant white flowers add to the multi-seasonal show from this award winning plant. Thrives in the dappled sunlight under the canopy of larger trees and in natural woodland settings. Deciduous. A carefree native.	Deciduous	Sun to Shade	Low to High	3-4' x 4-6'	Spring to Summer	White	Texas native	Bee Friendly	Attracts Butterflies		Deer Resistant
Texas Sage Green Cloud	<i>Leucophyllum frutescens</i>	Shrub	One of the largest and fastest growing Texas sages. Rich green leaves with rose-pink flowers. Known as a barometer bush, the blooms appear in profusion after a rain or when humidity is high. More tolerant of poor drainage and heavier soils than other Texas sages. Hardy to zone 7b. Texas Sage Microburst	<i>Leucophyllum candidum</i>	Shrub	Microburst is the first true dwarf Leucophyllum on the market. With a smaller stature, this clonal selection stays compact; therefore, requires very little maintenance. Bulletproof, Microburst can withstand heavy, damp soils without the threat of damping off. The ultraviolet bell shaped flowers contrast against the silver foliage of this	Evergreen	Sun - Part Shade	Low to Average	3' x 3'	Spring to Frost	Violet		Bee Friendly	Attracts Butterflies		Deer Resistant
Texas Sage San Antonio Rose	<i>Leucophyllum frutescens</i>	Shrub	Tough and beautiful, sporting an abundance of rose-pink flowers throughout summer on silver-leafed branches. This compact variety was bred for landscapes across the Southwest, thriving in heat and drought conditions. Ideal along roadways, driveways and parking strips, even along walls where there is reflected heat. We think its soft texture make it a lovely addition to succulent gardens. Evergreen	Evergreen	Sun to Part Shade	Low	4' x 5'	Summer	Purple-pink	Texas native	Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Weigela Spilled Wine	<i>Weigela florida</i>	Shrub	Spilled Wine Weigela sports fabulous deep purple-red waxy foliage with a natural spreading habit, and is blanketed with bright magenta-pink spring flowers. This useful plant grows wider than tall, making it the perfect choice for edging beds or walkways. Like all Weigela, it is deer resistant and very easy to care for. Best left unpruned. Vivid pink, funnel-shaped blooms of Weigela Spilled Wine in spring attract hummingbirds and butterflies.	Deciduous	Sun	Low to Average	2-3" x 2-3'	Spring to Summer	Vivid Pink			Attracts Butterflies	Hummingbird Magnet	Deer Resistant

Weigela Wine and Roses	<i>Weigela florida</i>	Shrub	The original dark-leaved weigela is still the champ! Wine & Roses Weigela bears rosy pink flowers in late spring (often reblooming in summer), adding a touch of romance against the rich dark purple foliage. Season-long color on this 4-5' tall and wide deciduous shrub. Deer resistant. Attracts	Deciduous	Sun to Part Shade	Low to Average	4-5' x 4-5'	Spring to Summer	Rosy Pink			Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Black Oak	<i>Quercus velutina</i>	Tree	Black Oak (<i>Quercus velutina</i>) is a large shade tree with bark that is smooth and gray on younger trees, becoming a blackish color with age, thick and rough, and deeply furrowed into ridges. The leaves are shiny green above and yellow-green underneath with brown hair, and turn dull red or brown in the fall. Mature trees produce large crops of	Deciduous	Sun	Low to Average	50-60' x 50-60'	Spring	Insignificant	Native		Attracts Butterflies		Deer Resistant
Desert Willow Bubba Jones	<i>Chilopsis linearis</i>	Tree	This desert willows features clear two-toned pink fragrant flowers that hang in clusters from the ends of the branches in mid to late summer. Its leaves are glossy green, and feathery in appearance. It is an extremely drought tolerant tree and cold hardy. It makes a great specimen planting, as well as providing a great food source for bees, butterflies, and hummingbirds! Once established drought tolerant.	Deciduous	Sun	Low	20-25' x 18-20'	Summer to Fall	Pink		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Desert Willow Sweet Bubba	<i>Chilopsis linearis</i>	Tree	This low-maintenance tree is perfect for hot, dry climates. Fragrant magenta flowers are larger than other varieties and continue blooming from spring to fall. This seedless variety does not produce unsightly long seed pods. Loved by pollinators. A wonderful focal point in the landscape. Water regularly until established. Since this tree thrives in hot, dry conditions, be careful not to overwater. Don't have room for a tree? You can shape and prune Sweet Bubba as a large shrub.	Deciduous	Sun	Low	15-20' x 12-18'	Spring to Fall	Magenta pink		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Bleeding Heart Vine	<i>Clerodendrum thomsoniae</i>	Vine Tender	Bleeding heart vine is a twining evergreen tropical vine. Even though it is vine it is also a somewhat bushy climber. The glossy, dark green, oval leaves are 5-7" long with smooth edges and pointed on the end. It usually blooms during the warm months and provides showy white flowers with dark red corollas giving a striking contrast. The foliage is smooth-edged, oval and 6" long. A common houseplant in cooler locations. Makes an excellent hanging container plant, or can be trained on a trellis.	Evergreen	Part Shade	Average to High	12 - 15'	Spring	White and Red		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Clematis Hickory Street	<i>Clematis terniflora</i>	Vine	An autumn clematis that blooms in summer! Cuttings from a gorgeous specimen found on Hickory Street, this handsome climbing vine displays billowy masses of 1" fragrant white flowers against leathery dark green leaves. Grows rapidly in warm temperatures with twining stems that quickly cover fences, arbors, and sheds. Flowers emerge in summer, followed by fluffy, silvery seed heads.	Deciduous	Sun - Part Sun	Average	15-30' x 15-30'	Summer	White		Bee Friendly	Attracts Butterflies	Hummingbird Magnet	Deer Resistant
Mexican Flame Vine	<i>Pseudogynoxys chenopodioides</i>	Vine Tender	Blooming from late spring to fall (all year in mild winter areas), daisy-like, fiery orange-red flowers, adorned with golden centers, appear at the branch tips. Dark green leaves make a striking contrast with the clusters of bright orange flowers. Overwinter indoors or take cuttings.	Herbaceous	Sun	Low to Average	6-12' x 3-6'	Spring to Fall	Orange		Bee Friendly	Attracts Butterflies
